

KlipHanger BARS FOR INDIAN CHIEFTAIN

The ultimate in rider comfort and adjustability, now for your Indian Chieftain and Roadmaster! The unique “klamps” on Klock Werks KlipHanger Handlebars allow the control/grip portions of the handlebar to be adjusted allowing the rider to position wrists exactly where they want them. The gentle bend in the bars allow for some pullback – bringing the bar back closer to the rider if desired.

FIT KIT includes: Bar sections manufactured from DOM tubing and Klamps machined from 6061 billet aluminum, chrome hardware, polished aluminum domed bar end plugs, and black clutch cable. Bars are drilled and slotted for internal wiring, work with heated grips, fully knurled center section (riser clamp area) for use with stock riser clamp set-up. Proudly made in the USA
