

BIG WHEEL STEEL FRONT FENDERS

When you choose to put that big wheel on your bagger, it will draw attention to the front of your bike, making your fender choice even more important! Klock Werks Big Wheel Steel Front Fender options for your 23" or 26" front wheel with raked neck and tree setups offer the right lines that flow correctly around a big wheel. A slammed stance, perfect spacing, rivetless smooth sides, and stretched rear sections define big wheel style. These ONE PIECE stamped steel fenders are 6-1/2" wide, and come ready for paint. Bolt right on to make your big wheel look bad ass!

All of Klock Werks Front Fenders are stamped from 14 gauge steel using precision, deep-draw stamping technology that ensures a consistently smooth and flawless finish, minimizing bodywork. Laser cut using 5-axis laser technology to ensure accurate fitment for direct bolt-on installation. Klock Werks then goes the extra mile to add e-coat, a process to prevent rust and corrosion. Painters love Klock Werks Fenders and you will too!

FITMENT: 2014+ FLH models, and 83-13 FLH models

PRICES STARTING AT \$399.95
