QUESTIONS?

-  **EMAIL:**
info@getklocked.com
-  **CALL:** (605) 996.3700

1. Using a 6mm Allen wrench remove the right two rear fender mounting bolts and cup washers

- 2b. Torque both bolts to 12 ft-lbs with blue thread lock applied to threads of each bolt

2. With the tall side on top, install number plate with supplied button head bolts, washers and cup washers using a 5mm allen wrench

3. Repeat for left side

- 2a. The bolt will go through the washer first, number plate and then the cup washer removed in step 1 before being fastened to the fender

CAUTION: Klock Werks cannot be held responsible for any damage to painted surfaces during removal or addition of Klock Werks parts.
