

FLARE™ WINDSHIELD FOR HONDA GOLDWING

The style and performance of Klock Werks original and patented Flare™ Windshield is now available for Honda Goldwing riders! Known for long distance riding, Goldwing riders will appreciate how the Flare™ Windshield improves comfort, as well as aids performance of an already great bike.

The Flare™ is the ORIGINAL windshield of its kind, and has surprised riders everywhere with not only how great it looks, but also with how well it performs. The innovative design features "hips" at the outer edge of the shield that re-route the air to add downforce to the front of the bike. This creates stability superior to riding with a stock shield. The "flip" at the top of the Flare™ is designed to kick the air up and back as "clean", less turbulent air for the rider and passenger. Made from hard-coated polycarbonate material for added durability.

The Flare™ is easy to install on Goldwings using factory mounting hardware, and still utilizes the adjustability of the stock windshield.
